

SYMPOSIUM | 10 NOVEMBER 2012

PERIPHERAL AND CENTRAL VESTIBULAR DISORDERS

Dear Madam
Dear Sir

You are kindly invited to this vestibular symposium that is organized in order to provide a framework for understanding the different aspects of peripheral, central and pediatric vestibular disorders. National and international specialists in the vestibular clinical and research field will cover these topics.

This symposium is open for all clinicians, audiologists and physiotherapists encountered with the difficult task of understanding and treating patients with vestibular complaints.

The organizing committee.

Robby Vanspauwen
Clinical Research Manager
ENT Dept. Sint-Augustinus Antwerp
